

PLOT PLAN

Instructions: Please include a drawing showing the property dimensions, service address, road name and two intersecting road names on each end of the road, the distance of house set-back. Use a **red -dotted line** to indicate where the proposed water line is desired. Sketch the home and the driveway – tap is not to be under driveway.

Width of the front yard

Name: _____ Phone# _____

Mailing Address: _____

Homes “outside” the village (on opposite side of road-perimeter roads of the village): In addition to the **tap fees**, they must pay **frontage fee** (up to 100 foot), and a **deposit**. If there is less than 100 foot frontage, you must bring in a copy of the deed to prove this. The water surcharge is 50% addition to our regular water rates. B.P.A. and Village Council must approve outside taps. Customer is to fill out the application (please include owner’s present address on the bottom of the application), a drawing showing the property dimensions, road name and two intersecting road names on each end of the road, and distance of house set-back. Return this application to the water department. **NO fees are collected until it is approved by Council.**
